Facts](#)

Dear Curtis,

The Environmental Protection Agency (EPA) Region 7, the government agency responsible for the radioactive wastes at the West Lake Landfill, has posted updates on the isolation barrier and offsite testing.

Isolation barrier: The financially responsible parties submitted a draft preconstruction work plan to EPA Region 7 on May 16, 2014. The isolation barrier is meant to stop the ongoing smoldering landfill fire in the South Quarry if it were to move towards the currently identified radioactive wastes at the West Lake Landfill Operable Unit 1, Area 1.

Offsite testing: EPA Region 5 & EPA Region 7 finished testing the Bridgeton Municipal Athletic Complex for radiation. Results are expected to be available in 30-60 days after quality control and quality assurance reviews.

When: June 19, 2014 from 6:30-8:30pm.
You can find previous community meetings [HERE](#).

Take Action

Senator Blunt, Senator McCaskill, Congressman Clay, and Congresswoman Wagner all have the power to transfer the

West Lake Landfill to the St. Louis Army Corps of Engineers FUSRAP by introducing and passing legislation. This action has been done by Democrats and Republicans alike in previous years and we call on them for a bipartisan effort to do the same here.

We appreciate their letter of support for the St. Louis Corps of Engineers FUSRAP involvement at the West Lake Landfill and it's time to go further. Call and ask them to put the St. Louis Corps FUSRAP in charge at West Lake now!

Senator Blunt: 202-224-5721
Senator McCaskill: 202-224-6154
Congressman Clay: 202-225-2406
Congresswoman Wagner: 202-225-1621
